

Vaughan Forklift Training Courses

Vaughan Forklift Training Courses - Our forklift operator safety training has been tailored for illiteracy, thus cutting the training time by 50%. We provide lift-truck operator driver safety training evaluation, train the trainer and forklift training certification programs provide regulation-compliant, thorough training in industrial-powered fork truck operation and safety. Forklift pedestrian safety is offered too.

We have a really competent group of professional trainers to make sure that your workers are trained well. The certification is delivered on site by one of our qualified instructors. Trainees would learn how to recognize dangers and perform safety checks necessary for the safe and effective utilization of a powered industrial lift truck.

Forklift Training Tips

The following checklist is vital for whichever workplace which has forklifts on the premises. Each of these questions must be answered with "yes" if all the safety rules and regulations are being followed. A "no" to whichever question indicates a procedural flaw that might lead to damage to equipment, accident or injury.

- 1) Is the operating area of the forklift separate from the traffic of pedestrians?
- 2) Is pedestrian access to travel areas of the forklift restricted by barriers?
- 3) The walkways for pedestrians are well-marked?
- 4) A sign is clearly visible stating a "forklift in operation"?
- 5) Are mirrors for pedestrians and drivers provided at blind spots?
- 6) Alterations or changes to the daily lift truck schedule has been communicated to workers?
- 7) Are forklift tires suitable for utilization on all operating surfaces?
- 8) Is the seatbelt being used?
- 9) The seat of the forklift is in good condition?
- 10) Is a regular forklift maintenance schedule adhered to?
- 11) Is a yearly forklift inspection and certification carried out?
- 12) Is the kind of forklift right for the tasks?
- 13) Does forklift has a readable load chart?
- 14) Do all operators know how to read the load chart?
- 15) Does the chart list the safe capacity for different uses and attachments?
- 16) Are the warning devices on the forklift working correctly?
- 17) The speed operating control device is secured correctly?
- 18) Is overhead cage fitted correctly on the forklift?
- 19) Have all forklift operators acquired certification?
- 20) Are warning signs and speed limits being observed?
- 21) The operators have current training for the forklifts being utilized?
- 22) Forklift operators understand their duties to report the damage to the machine and other lift truck incidences?
- 23) Is the pre-test checklist reviewed daily prior to the equipment being utilized?
